## MAINTENANCE AND CARE

### SYNTHETIC WEAVE

For our all-weather outdoor collection, we use multiple synthetic materials, including polyethylene, polypropylene, HDPE wicker and HPL.

All our synthetic materials are specifically designed to withstand any weather conditions, are UV-resistant, and can be left outside all year long.

We recommend giving them a quick wash when dirty or every three months with a non-foaming mild detergent.

### HPL

You can use your HPL side tables inside as well as outside.

Dirt does not easily stick to the material, which makes your side tables easy to maintain.

Use a damp cloth and water to clean spilled solutions. The quicker you remove them, the easier.

Use a solution of water and mild soap to clean more stubborn stains.
