MAINTENANCE AND CARE

SYNTHETIC WEAVE

For our all-weather outdoor collection, we use multiple synthetic materials, including polyethylene, polypropylene, HDPE wicker and HPL.

All our synthetic materials are specifically designed to withstand any weather conditions, are UV-resistant, and can be left outside all year long.

We recommend giving them a quick wash when dirty or every three months with a non-foaming mild detergent.

STEEL

For the outdoor pieces, the steel is always epoxy coated and powder coated to make sure it is protected from all-weather influences.
