## MAINTENANCE AND CARE

### RATTAN

Rattan is a very flexible material with distinct characteristics, thus allowing to create beautiful, unique and solely handcrafted designs with it.

It's therefore no wonder that rattan is one of the favourite materials at Vincent Sheppard to work with.

As a bonus, rattan is easy to maintain: clean it every now and then with a moist towel and some natural soap, and you'll be able to enjoy it for many years to come!

### STEEL

Steel is used in our indoor collection as well as our outdoor collection, mainly for the legs and frames of our furniture pieces.

For the outdoor pieces, the steel is always galvanized and powder coated to make sure it is protected from all-weather influences.

Clean your armour with a moist towel and some natural soap!

### VARNISHED OAK

Our varnished tables are finished with a water-based lacquer for the protection of the wood and has an good chemical and mechanical resistance.

Regular cleaning with a mild solution of water and natural soap will do the trick!

Please do not sand varnished furniture, as this will damage the protective layer and will thus affect the water and dirt resistance of your furniture.
